

## KEY DATES

<b>15.11.2006</b> paper submission	<b>01.11.2006</b> workshop proposal
<b>15.01.2007</b> notification of acceptance	<b>15.01.2007</b> exhibition proposal
<b>15.02.2007</b> camera ready paper	<b>31.01.2007</b> early registration
	<b>21.03. - 24.03.2007</b> ICVS 2007

## WORKSHOPS & EXHIBITION

The ICVS2007 conference committee cordially invites members from all areas of the computer vision systems community to submit proposals for workshops to be held in conjunction with the main conference. Workshops should facilitate a lively discussion about emerging topics or specific aspects of broader topics in the area of computer vision systems.

If you have any questions regarding workshop topics or organisation, please feel free to contact the workshop chair, Bärbel Mertsching, via email at: [workshops@icvs2007.org](mailto:workshops@icvs2007.org)

In addition to the conference and workshop programme, the conference committee will allow researchers and practitioners from industry to demonstrate computer vision systems in operation and to present the underlying principles in a manner not possible in a technical talk or a poster session alone. Interested laboratories and industries are encouraged to contact the exhibition and industrial relation chair, Christian Wöhler, via email at: [exhibition@icvs2007.org](mailto:exhibition@icvs2007.org)

## VENUE

Founded in 1214, Bielefeld has since then developed into one of Germany's top 20 largest cities. Its location near the center of Germany and a good integration into the transportation infrastructure make it easy to reach Bielefeld from all parts of Europe and many international airports. Although being a busy and dynamic city, Bielefeld offers pleasant spots to relax and a lot of possibilities to enjoy cultural activities.

Modern concepts in research and education, its strong interdisciplinarity and international orientation are essential qualities of Bielefeld University. Its compact architecture is well suited for about 20.000 enrolled students and thus allows to provide the facilities necessary for any purpose of a conference like ICVS.

**ICVS2007**  
International Conference on Computer Vision Systems  
Vision Systems in the Real World:  
Adaptation, Learning, Evaluation

**21.03. - 24.03.2007**

**15.11.2006**  
paper submission

## ABOUT THE CONFERENCE

The *5th International Conference on Computer Vision Systems* aims to gather researchers and developers from academic fields and industries worldwide to share their research results covering all aspects of intelligent vision systems. The programme committee cordially invites you to attend ICVS 2007 and submit papers on all aspects of intelligent vision systems including, but not limited to:

- > **Computer vision from a system perspective: applications, architecture, integration & control**
- > **Cognitive vision techniques for scene analysis, semantic interpretation, and learning**
- > **Methods and metrics for performance evaluation**

A major theme will be vision systems that interact with or respond to their environment in a dynamic and adaptive manner. An emphasis will be put on integrated systems that are robust enough to be deployed in largely unconstrained environments.

The conference programme will include invited talks as well as oral poster presentations of selected papers. The best conference paper will be awarded an IAPR best paper prize.

Besides the scientific goals of the conference, the organisers strive to provide an accessible meeting by keeping expenses for participants affordable, particularly for young researchers.

*ICVS2007 is supported / endorsed by the IAPR (International Association for Pattern Recognition) and the GI (German Informatics Society) - Computer Vision Section.*

## AUTHOR INFORMATION

To increase visibility and scientific impact, the conference proceedings will be published according to the idea of open access at the Institutional Repository of Bielefeld University Library indexed by Google Scholar.

Additionally, the best papers of the conference will be selected for a reviewed special issue of a renowned journal in the area of vision systems. A special issue of *Image and Vision Computing* is therefore being prepared by Prof. K.D. Baker (IVC General Editor) and Prof. M. Thonnat (Guest Editor).

## CONFERENCE COMMITTEE

General Chair ••••• Gerhard Sagerer  
*Bielefeld University, Germany*

Programme Chair ••••• Monique Thonnat  
*INRIA Sophia Antipolis, France*

Workshop Chair ••••• Bärbel Mertsching  
*University of Paderborn, Germany*

Exhibition and Industrial Relations Chair ••••• Christian Wöhler  
*R&T, DaimlerChrysler AG, Germany*

Local Chair ••••• Sebastian Wrede  
*Bielefeld University, Germany*

Administrative Assistance ••••• Catherine Martin  
*INRIA Sophia Antipolis, France*

## PROGRAMME COMMITTEE

Christian Bauckhage, T-Labs, Berlin, Germany  
Bir Bhanu, University of California, Riverside, USA  
Horst Bischof, TU Graz, Austria  
Alain Boucher, IFI Hanoi, Vietnam  
Francois Bremond, INRIA Sophia Antipolis, France  
Andrea Cavallaro, Queen Mary University of London, UK  
Henrik Christensen, Georgia Institute of Technology, USA  
Anthony Cohn, University of Leeds, UK  
Patrick Courtney, Perkin Elmer Life Science, UK  
James L. Crowley, I.N.P. Grenoble, France  
Larry Davis, University of Maryland, USA  
Alberto Del Bimbo, University of Firenze, Italy  
Sven Dickinson, University of Toronto, Canada  
Bruce Draper, University of Colorado, USA  
Jan-Olof Eklundh, KTH Stockholm, Sweden  
Gian-Luca Foresti, University of Udine, Italy  
Wolfgang Förstner, University of Bonn, Germany  
David Hogg, University of Leeds, UK  
Celine Hudelot, ECP Paris, France  
Josef Kittler, University of Surrey, UK  
Rick Kjeldsen, IBM T.J. Watson Research Center, USA  
Walter Kropatsch, TU Vienna, Austria  
Ales Leonardis, University of Ljubljana, Slovenia  
Bärbel Mertsching, University of Paderborn, Germany  
Bernd Neumann, University of Hamburg, Germany  
Ramakant Nevatia, University of Southern California, USA  
Lucas Paletta, Joanneum Research, Austria  
Justus Piater, University of Liege, Belgium  
Claudio Pinhanez, IBM T.J. Watson Research Center, USA  
Axel Pinz, TU Graz, Austria  
Paolo Remagnino, Kingston University, UK  
Gerhard Sagerer, Bielefeld University, Germany  
Bernt Schiele, TU Darmstadt, Germany  
Mubarak Shah, University of Central Florida, USA  
Monique Thonnat, INRIA Sophia Antipolis, France  
John Tsotsos, York University, Canada  
Sergio Velastin, Kingston University, UK  
Markus Vincze, TU Vienna, Austria  
Sven Wachsmuth, Bielefeld University, Germany  
Christian Wöhler, DaimlerChrysler AG, Germany
